Subject	Re: matlab to simulink [ ref:_00Di0Ha1u._5000ZsRwgc:ref ]

**Body**

Hello minh,

I am writing in reference to your Technical Support Case #02775717 regarding 'matlab to simulink'.

I understand you have MATLAB code that you would like to be able to simulate in simulink. The simplest way to do this would be to use a MATLAB function block. Refer to the following documentation link for more information:

<https://www.mathworks.com/help/simulink/slref/matlabfunction.html> (<https://www.mathworks.com/help/simulink/slref/matlabfunction.html>)

Please respond to this email if you have any more questions and I will be happy to assist you further.

Please preserve the Reference ID in further correspondence on this query. This allows our systems to automatically associate your reply to the appropriate Case.

If you have a new technical support question, please submit a new request here:

<http://www.mathworks.com/support/servicerequests/create.html> (<http://www.mathworks.com/support/servicerequests/create.html>)

Sincerely,

Mark Schwab
